(1) Pursuant to Article 19(1) of Regulation (EU) No 528/2012 a biocidal product may be authorised if the active substances in the product have been approved in accordance with Article 9 of that Regulation.

(2) A biocidal product may be authorised even if one or more of the active substances contained therein has been manufactured in a different location or according to a different process, including from different starting materials, than those of the substance evaluated for approval pursuant to Article 9 of Regulation (EU) No 528/2012.

(3) In such cases, for the purpose of ensuring that the active substance contained in a biocidal product does not have significantly more hazardous properties than the substance which has been evaluated for the purpose of approval, it is necessary to establish technical equivalence pursuant to Article 54 of Regulation (EU) No 528/2012.
